Education

BMS College of Engineering — Bengaluru, Karnataka
B.E in Computer Science Engineering — *Expected 2027*

Narayana Junior College — Hyderabad
Class XII (CBSE): 89% — JEE Mains: 98 — Advanced: ∼25,000 — COMEDK: 791 — *2020 – 2023*

Sainik School Kalikiri (SSKAL) — Kalikiri
Class X (CBSE): 96% — *2015 – 2020*

Technical Skills

Languages: JavaScript, C++, SQL
Backend & Databases: Node.js, Express.js, MongoDB, MySQL, REST APIs, WebSockets, Firebase
Frontend: React.js, HTML5, CSS3, TailwindCSS
Authentication & Security: JWT, Google OAuth, bcrypt, Role-Based Access Control
APIs & Architecture: Server-Sent Events, CRUD Operations, MVC Architecture, Manifest V3
Data & Machine Learning: scikit-learn, NumPy, Pandas

Certifications

The Basics of Google Cloud Compute | *Google Cloud*

- Completed the Google Cloud skill badge with hands-on experience in Compute Engine, Cloud Storage, persistent disks, VM configuration, Linux, and NGINX web server deployment.

Projects

Ultra Scraper AI | *JavaScript, Chrome Manifest V3, FastAPI, Python, scikit-learn, NumPy, Pydantic, REST APIs*

- Engineered a Manifest V3 Chrome extension using content scripts, a background service worker, sidebar UI, and chrome.storage.local for browser-native data extraction and persistence.
- Automated DOM-based detection of repeating structures, manual element selection, and extraction of structured fields, metadata, emails, text, images, links, and paginated content.
- Integrated an optional FastAPI backend with TF-IDF-based field classification, natural-language intent parsing, data normalization, deduplication, rule-based fallbacks, and CSV/JSON/Excel/ZIP export workflows with automated API testing.

EduConnect | *React, Node.js, Express.js, MongoDB, JWT, bcrypt, Google OAuth, SSE, Stripe, Vercel*

- Built EduConnect, a web platform connecting students, teachers, and administrators through centralized academic management features, course organization, and CRUD operations.
- Configured JWT authentication with bcrypt password hashing and Google OAuth, alongside role-based access control, profile management, responsive UI components, and form validation.
- Implemented real-time notifications using Server-Sent Events (SSE) and integrated REST APIs, MongoDB, Stripe payments with webhook verification, and modular MVC-style architecture, deployed on Vercel.

FIFA World Cup 2026 Prediction Pool | *React 19, JavaScript, Vite, Tailwind CSS, Firebase, Google OAuth, JWT*

- Created a full-stack FIFA World Cup prediction platform using React 19, JavaScript, Vite, Tailwind CSS, React Router, and Firebase.
- Enabled Google OAuth authentication via Firebase Authentication with JWT-based sessions, real-time predictions, and a 10-minute pre-match deadline enforced through Firebase Realtime Database security rules.
- Implemented scoring, automated result synchronization and leaderboards using Cloud Functions, along with global/private leagues, custom slugs, invite codes, React Context API, and custom hooks.

Experience

Club Service Director — Jun 2025 – Dec 2025
Rotaract Club of BMSCE — *Bengaluru, Karnataka*

- Led the team in conducting the college's first-ever Onam Utsavam, coordinating logistics, volunteers, and programming.
- Helped advance the Rotaract Club's standing from the college to the district level, reflecting strong leadership growth.
